

# YOUR INPUT IS WELCOME

The Town of Omro Comprehensive Outdoor Recreation (COR) Plan is being reviewed by the Planning Commission with the intent to re-adopt the COR Plan with updates by the end of this year to cover another five-year span.

You can view the COR Plan on the Town of Omro website,

<http://www.townofomro.us/>

under Forms/Permits & Publications/Publications. If you have suggestions for improving the Plan you can share your ideas in several different ways. The Best way would be to attend a Plan Commission Meeting. The PC meets on the Thursday following the first Tuesday of the month, the next one being April 5. Otherwise you can contact any of the Plan Commission members that are listed on the Plan Commission page of the Town web site or you can contact any of the Parks & Recreation Sub-Committee members who are listed on the Parks & Recreation page. That Committee has been guiding the review. You could also use the submissions form on the web site.

The COR Plan is intended to lay out the needs of our Town for Recreational features as guided by national standards and then lay out a guide for achieving those standards in an organized fashion over a number of years. It has also come to include a list of accomplishments towards those goals. It includes plans for non-motorized trails, parks and park equipment. Over the years the Town has been putting in place trail segments and has created two parks to serve different neighborhoods.

We would really appreciate your comments on how that Plan should look.
